7. DISTRICT ECONOMY

a. AGRICULTURE

□ The Kintampo Municipal economic activity can be described as purely agrarian in that almost every resident in the area is a farmer. Majority of the people are engaged in agriculture and its related activities. Yam, maize, cassava, groundnuts and rice are the major crops produced in the area and constitutes the main source of household income for the people. Other crops grown are Cowpea, Sorggum, Vegetable and Water Mellon, Plantain, Egushie, and Beans. Commercial tree crops such as Mango and Cashew are also grown in large scale.

b. TRADE

Brisk Commercial activities takes place in Kintampo weekly market (Every Wednesday) with and attract traders from neighbouring countries (Burkina Faso and Togo). Major traded goods in the market includes yam, charcoal, maize and Cassava. There are five other operational markets at Babatokuma. Dawadawa, Gulumpe. NewLongoro and Kunsu.

The Municipality is also privileged to have three (3) rest/bus stops where there are booming economic activities.

c. ROAD NETWORK

The Trans Sahara Road passes through the District with a major stop over station (STC and Falls Rest).

There are two other arterial roads which are the Ntankoro, Kunsu road to the east and New Longoro Road to the West. The total road network coverage of the Municipality is 242.95km with 70.89km (30%) of road engineered.

d. EDUCATION

Kintampo Municipality is also privileged to have the College of Health and Well-being for rapid socio-economic development.

Other educational institutions both private and government with respect to basic, vocational, and secondary are available to serve the needs of the growing population in the pursuit of acquiring knowledge, skills, attitudes, values and character for human capacity

e. HEALTH

The Municipality has both public and private sector operators. Notable among them are the Municipal Hospital, 2 (Two) known private health facilities, Three (3) herbal centres, and Twenty-Four (26) CHPS Compounds. There are 337 health professionals within the Municipality including 3 Doctors with a Doctor to Patient Ratio of 1:57,241

The Municipality has scattered settlement and this impacts negatively on health services delivery.

f. WATER AND SANITATION

The Municipality is confronted with water and sanitation challenges. Due to the many interventions most of the population (67.35%) in the Municipality uses protected well

as their main source of drinking water. However, more than average population (55.3) of the rural settlement rely on unprotected water which includes river/stream and bore-hole/pump/tube well and just 9.8% of the urban population. Some households also rely on unprotected well as their source of drinking water. (Source: GSS 2010 PHC).

There is poor drainage system in the Municipal causing serious erosion. The Municipal is also beset with indiscriminate disposal of both liquid and solid waste despite the availability of designated refuse sites and public toilet facilities. About 24.1% of the urban population have no facilities and rely on bush/field popularly known as open defecation (Source GSS, 2010 PHC).

g. ENERGY

The main source of energy in the Municipality is electricity since most of the communities in the Municipality are connected to the National Grid. Firewood and charcoal are the main source of energy for cooking.

h. TOURISM

One classification of the tourist attractions in the Municipality is the historical heritage which includes the Geographical Centre of Ghana located at the Municipal Capital, Kintampo. The Slave Market, Caves and Night Lamp at Kunsu. European Cemetery where eight of the “Gold Coast Regiment” were buried also in Kintampo. The British established several operational offices during the colonial period. Kintampo was the seat of the Commissioner of the Ashanti Region. Several of the original British buildings are still standing.

The main natural attractions are the Pumpum River which falls 70m down some beautiful rocky steps to form the Kintampo Water Falls which continue its journey towards the Black Volta at Buipe, and the Fuller falls 7km west of Kintampo which provides a cool swim in a pool; stool- like carved rocks to sit. These natural sites have been sources of revenue to the Kintampo Municipal.

8. KEY ISSUES/CHALLENGES

Key issues and challenges include but not limited to the following:

Physical development: The Municipality is confronted with haphazard development of settlement, poor drainage system, poor road network in Kintampo Township and poor quality of Arterial roads etc

Security: the Municipality is a hot spot with high incidents of Highway robbery, chieftaincy, land and communal disputes. Additional infrastructure are being put at vantage location to improve police visibility in the Municipality. The mandate of the Municipality in maintaining peace and security has been a major drain to its limited resources.

Water and Sanitation: there is inadequate water supply to for domestic use in most parts of the Municipality due to low water table and poor quality of ground water. Four small town water supply systems have been provided but remains insufficient. There residents do not engage in proper disposal of waste creating poor sanitary conditions and choking of gutters.

Health and Health services delivery: Difficult terrain which makes it impossible to access some communities especially the “BONCHES” during most part of the year. Likewise, settlements are highly dispersed compounding the reach problem. In all, there are 38 hard – to –reach- communities. Poor quality of drinking water due to low yield and unacceptable taste in guinea worm endemic communities is another major challenge to health service delivery in the Municipality.

Education: Inadequate and poor school infrastructure, and financing of other educational programmes to improve teaching causes low academic performance of public schools. Lack of teachers’ bungalows at remote communities affect effective teaching and learning as teachers commute to school every school day.

Climatic Variability and Change: Deforestation (bush burning, nomadic activities and charcoal burning) is a major concern to the increasing climate variability and change. This is adversely affecting the productivity of the agricultural sector in the

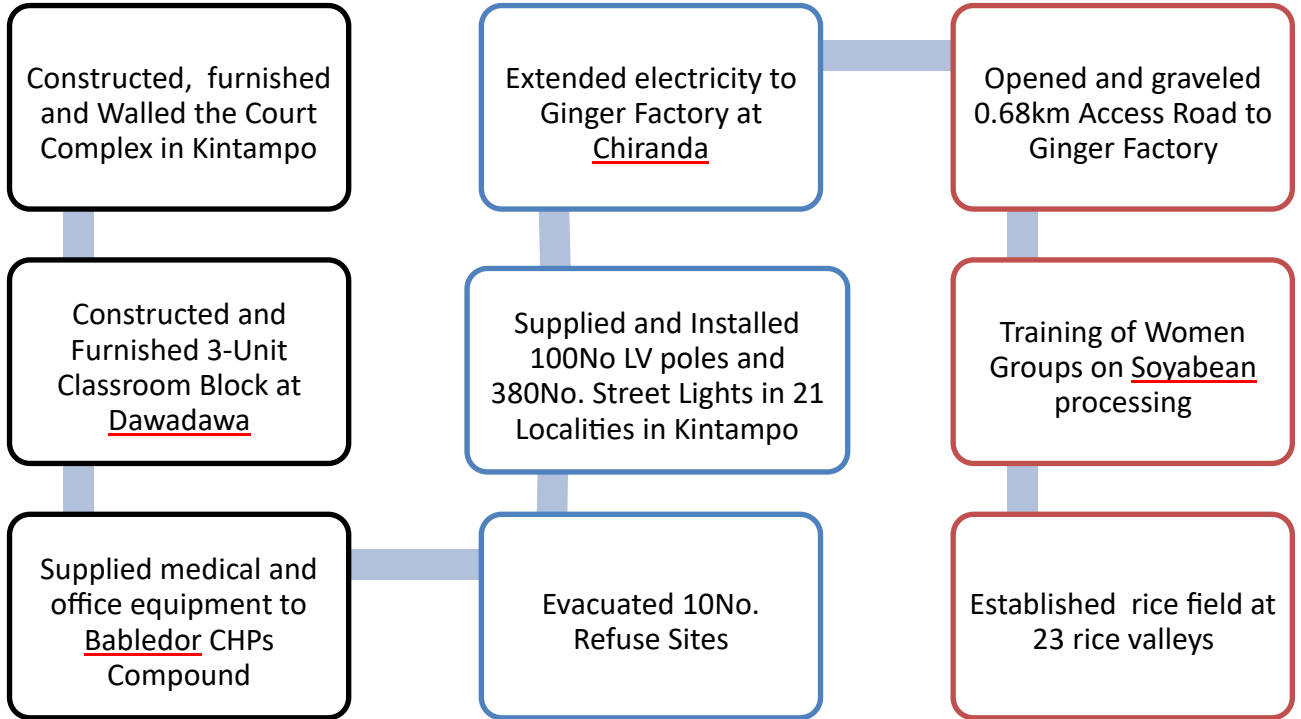

Municipality due to loss of soil nutrients and drought. Rain and storm disasters are being experienced in the Municipality.

Agriculture: one of the major challenges to the agriculture sector is the activities of nomads and hunters who cause mass destruction of farms and farm produce. Pest and diseases also affect the quality and volume of production of food and tree crops.

Finance: the Municipal Assembly is faced with inadequate revenue generation for the effective administration and management of developmental activities. Less compliance of citizenry to their civil tax obligation is a serious setback to the revenue generation of the Assembly. There is also delay in release of funds from Central Government which consequently delay the implementation of projects and programmes to the benefit of the citizenry.

Road Network: Roads in the Municipality are in a very deplorable state. Apart from the Highway linking to Teachiman North and Central Gonjo Districts the rest of the roads are not motorable. The Roads linking to most of the communities in the Municipality are hard to reach and need immediate attention. The situation in Kintampo Township is worst, most of the town roads are vulnerable to erosion. There are no proper drainage system in the township due to the absence of well-constructed town roads. This has affected the Assembly's revenue mobilization drive (especially property rates) negatively.

8. Investment income: performance is 10.82%. It is below expectation due to breakdown of the Assembly pay loader and slow post covid-19 recovery from the Kintampo Waterfalls.

Line Graph Showing IGF Trend

2. The trend started with a decreased from 2015, 2016 and 2017 fiscal years but changed trend in 2018
3. Actual revenue performance saw an increasing progression in 2018 and 2019 but slightly fell in 2020.

The highest progress was in the 2018 fiscal year where 85% of the annual target was achieved with a significantly 36.48% growth from 2017 fiscal year.

From 2018 to 2019, the growth in revenue drastically fell to 4.97%. Despite significant improvement in the two major revenue items (fees and licenses), this could not compensate for the effect of the revenue from new market stores in 2018.

2020 being an election year and with the adverse effect of Covid-19 on the local economy, revenue by GHs1,945.00 from the 2019 actual.
